

AGUINALDO A PRISONER TRAPPED BY GEN. FUNSTON

DENOTES THE END OF FILIPINO WAR

Capture of Rebel Leader
Pleases Mr. McKin-
ley Very Much.

CAPTIVE IS IN MANILA

The Serious Problem Now Is,
What To Do with the
Insurgent Chief.

MAY BE TRIED AND EXECUTED

Washington, March 28.—A cable-gram from General MacArthur reports the capture of Aguinaldo. The president received the news at 8:30 o'clock this morning as he left his room to go down to breakfast. His face lightened with a smile as he exclaimed "that's good; that's good." He took the message with him to the dining room where he showed it to Mrs. McKinley. The president feels that the capture of the insurgent chief will end the insurrection so far as all organized opposition to the United States is concerned.

With the expected collapse of further opposition which is confidently believed will follow the capture, it is confidently believed will follow the capture, it is expected that it will not be necessary to maintain such a large standing army in the islands as is now contemplated.

May Be Executed.
The disposition of Aguinaldo now that he has been apprehended will be an interesting one for the administration to determine. The attitude of the government for a long time past has been one of comparative indifference to Aguinaldo's capture, it having been determined to crush the rebellion without regard to his whereabouts. His recent activity in directing the course of operations against the American forces probably brought about the recent change in this attitude.

As the leader of an insurrection against the United States government Aguinaldo may be tried and executed a lesser punishment rests with the military authorities.

Rejoicing in Washington.
Washington, March 28.—The news of the capture of Aguinaldo by Gen. Funston was received with much rejoicing in official circles here and generous praise is bestowed upon the gallant Kansas man whose strategy and bravery finally placed the wily Tagal chieftain in the hands of the Americans. The greatest secrecy had been kept over the plans. Neither the president nor the war department had any knowledge of it until after Funston was well on his way, but ever since he has been informed of the details the president has been awaiting with intense interest to hear the result.

The public was first let into the secret on March 23 by a Manila press dispatch that Aguinaldo was taken. It was soon realized that Funston and his band were taking their lives in their hands, as the men who were treacherous enough to betray Aguinaldo's hiding place might easily be suspected of leading Funston into a trap.

Made Brave Resistance.
Manila, March 28.—Aguinaldo was not taken without brave resistance on the part of his followers, one of whom, an insurgent major was killed. Important papers were found on the rebel chief. Aguinaldo was taken ashore this afternoon and after having lunch with General MacArthur, was committed to Andra Street jail. He is

EMILIO AGUINALDO.

in good health and is cheerful.
Boston, March 28.—Sixto Lopez, the former secretary to Aguinaldo, who has been here for some time representing the Filipino cause, said this morning: "Assuming that the great Filipino leader was taken, his capture would affect the policy of the Filipinos. There are other men fully as capable as Aguinaldo to take his place, among them are Tino, Mescardo, Calles, Malvar and Alejandro, in the later of whom the Filipinos have the utmost confidence."

AGUINALDO IS A CAPTIVE.

Wily Filipino Falls Into the Hands of General Funston.

Manila, March 28.—Aguinaldo is a prisoner. He was brought to Manila today by General Funston, by whom he was captured in Isabela Province, about six days' march inland from the east coast of Luzon, north of Baler.

Aguinaldo was captured on March 23, in the country near Casiguran, nine miles from the town of Baler. His entire staff was taken prisoner at the same time and were brought with him to Manila on the gunboat Vicksburg, arriving this morning.

Starts Three Weeks Ago.
Funston started on the expedition which resulted in the capture of Aguinaldo three weeks ago. He had with him a company of natives, and was assisted by Captain John Newton of the Thirty-Fourth volunteer infantry, Lieutenant Admire of the Twenty-Second infantry, Lieutenant Mitchell of the Fortieth Volunteers, and Surgeon Major Harris.

The expedition was conveyed by the gunboat Vicksburg and the cruiser Albany to a landing place on the east coast of Luzon, north of Baler. From the landing place Funston had a six days' march inland before reaching Aguinaldo's hiding place.

Hiding Place Betrayed.
The rebel chief's hiding place was revealed by a Filipino officer, who turned over to Governor General MacArthur a letter from Aguinaldo. The letter ordered the Filipino officer and other leaders of the insurgent forces in southern Luzon to meet him at a designated rendezvous in Isabela Province.

General Funston at once proposed to lead an expedition to Isabela Province in an effort to capture Aguinaldo. After much discussion Governor General MacArthur consented and the preparations were begun.

Funston's Adroit Ruse.
Funston's plan of operations was unique. After being landed on the east coast Funston and his four American companions were to play the role of prisoners in the hands of the natives, who were to represent themselves to Aguinaldo as loyal Filipinos. When brought before Aguinaldo the latter was to be seized by Funston's native troops, made a prisoner and brought to Manila.

Funston's plans went through as well as they had been planned. Aguinaldo fell into the trap, was made a prisoner, and was brought to Manila in the gunboat Vicksburg, which had remained cruising off the coast of Luzon for that purpose.

extraction. His general condition which improved somewhat at first; is now very low. The surgeons refused to say that they feared the worst but do say that there must be an improvement soon or the danger will be great.

WANTS HORSES AND PONIES.

James F. Snow of New York in the City in Search of Stock.

James F. Snow of New York City has been in this city for the past few days in search of horses and ponies. Mr. Snow has a large stock farm near New York City and is an extensive breeder of horses and ponies.

While here he visited the farm of Robert Lillburn near Emerald Grove and purchased sixty ponies, two car loads which will be shipped to his farm in New York.

Mr. Lillburn is the most extensive breeder of ponies in this part of the country and has a large number on hand at all times. He sells a great many every year to people in the East. A matched pair of ponies sells for more money than a fine pair of drives or coach horses. If they were sold by the pound they would bring anywhere from \$1 to \$2 per pound.

This shipment of Mr. Snow will be the largest one made from this part of the country for many years.

The case of A. Thompson vs. A. Bergman was called in the municipal court this morning and adjourned on April 5 at 10 a. m. J. J. Cunningham appeared for the plaintiff and Edward Peterson and Jesse Earle for the defendants.

ENGINEER IS SLAIN IN RAILWAY WRECK

Harry Jones Killed and Many Injured in a Collision on Northwestern Near Appleton.

Appleton, Wis., March 28.—A collision on the Northwestern road at Little Rapids this afternoon between a north bound passenger train and a heavy freight resulted in the death of the passenger engineer, besides serious injuries received by a number of others.

The dead:
Jones, Harry, Milwaukee, engineer of passenger.

The injured are:
Thompson, George H., Fond du Lac, fireman; hip dislocated and badly cut about head and face.

Izard, R. E., Milwaukee, conductor, shoulder dislocated, cut about head, Griffin, Donald, member of Lawrence university mandolin club, Appleton; cut about head, face and shoulders.

Many others the extent of whose injuries have not yet been ascertained, were conveyed to hospitals in Green Bay. All of the injured were aboard the passenger train which struck the freight while going at a high rate of speed and demolished both locomotives, besides piling up the cars in a mass of debris so that it is considered marvelous that the list of fatalities is so small.

THREATENED STRIKE IS DECLARED OFF

All Differences Between the Miners and Operators in the Anthracite Regions Are Settled.

New York, March 28.—According to a statement given out this morning by Father Phillips, a mediator, the differences between the strikers and operators have been settled and the threatened strike of one hundred and forty thousand men in the anthracite regions is off.

TWO ENGINEERS AND ONE FIREMAN DEAD

Head End Freight Collision on the Boston & Maine Near Rotterdam, N. Y., This Morning.

Albany N. Y., March 28.—In a head end freight collision on the Boston & Maine near Rotterdam this morning, engineers Morrill and Kemp were killed and three trainmen injured.

VOTING MACHINES MAY COME IN USE

Senate Orders the Hall Bill Passed to a Third Reading.

SIDE PATH BILL ALIVE

Primary Election Bill Supporter Will Scorn a Compromise in the Matter.

TO PROTECT AMERICAN FLAG

Madison, Wis., March 28.—The use of voting machines in Wisconsin is likely to be legalized by the legislature, the senate having today ordered to third reading the Hall bill passed by the assembly providing for their use.

There was a small jangle in the senate over the apportionment of an amendment changing the make up of the two assembly districts in Brown county, so as to ensure two republicans. The bill and amendment were finally sent back to the committee.

The senate killed the bill providing twenty thousand dollars for a cottage for the women students at the University. The bicycle side path bill which came on the assembly calendar recommended for killing was laid over for a week.

The assembly reconsidered the vote by which it passed the bill relating to right of way for street railways a clause having been discovered which was believed to give street railways the right of way through public parks. The bill was sent back to the committee.

LEGISLATIVE PROCEEDINGS.

Bill to Punish Those Using American Flag for Advertising Purposes.

Madison, Wis., March 28.—The assembly yesterday passed the Anson senate bill to punish those who use the American flag for advertising purposes.

The bills making post-nuptial insanity a cause for divorce and prohibiting marriage within a year after divorce were laid over.

At last night's assembly session the bills providing for soldiers' monuments at Shiloh battlefield and for the state homes for inebriates and consumptives were killed. The Torrens land system bill was passed, and the Spratt bill, repealing the corrupt practice law, was advanced to the third reading. Senator Eaton's bill providing for examination and licensing of stationary engineers and inspection of boilers was advanced to third reading.

The bill permitting cities to pension police and firemen who have attained the age of sixty-five years and served twenty-five years was reported favorably.

Arrangements are being made for a legislative ball to be held in the gymnasium of the university on April 21.

The senate committee on assessments and collection of taxes decided to report for passage the bill drawn by the state tax commission shall be a state board of assessment and another bill also drawn by the tax commission providing that the commission shall have the authority over the enforcement of the tax laws and the assessment and collection of taxes, and over the acts of all tax officials in the state.

The assembly committee on dairy and food decided to report for killing Mr. Kern's bill prohibiting the sale of the milk given by cows which are fed on the slops sold by vinegar factories, or milk taken from cows which are diseased.

The voting machine won its first round in the fight for recognition in Wisconsin yesterday by being recommended favorably by the senate committee on privileges and elections, which decided to report for passage

Mr. Hall's amendment to the constitution to allow the legislature to provide for the use of such machines at elections.

SCORN A COMPROMISE.

Primary Election Bill Supporters Are Becoming More Obstinate.

Madison, Wis., March 28.—There have been enough developments today in the preliminary skirmish now waging over the primary election bill, to indicate pretty well along what lines the measure is to be fought out in the upper house of the legislature.

Neither side will listen to compromise. The friends of the bill say that they can pass their measure. The opponents say that they will kill it. The latter claim is by far the most probable. The opponents claim at least eighteen votes, while the supporters claim but fifteen, or two less than is needed for a majority, assuming that all members will be there to vote.

This is the situation today. The plan of the opposition is to dispose of the two bills now pending and then offer a compromise measure that will tend to unite the factions and promote the cause of the republican party. This measure, according to the present position, will apply the primary election principle to counties.

It will be a conservative measure, something to make an experiment with and will not be so drastic or sweeping a bill as is now proposed by the administration. But even before that can be accomplished, the substitute and the original Stevens bills must first be killed.

COURT OF APPEALS REVERSES FINDINGS

Caleb Powers and Jim Howard Will Be Given Another Trial in Courts of Kentucky.

Frankfort, Ky., March 28.—The court of appeals today reversed the findings of the lower court cases of Caleb Powers and Jim Howard, convicted of complicity in the murder of Goebel and granted new trials. Powers was for life and Howard was sentenced to hang as the result of the first trials.

INSANE MAN RUNS AMUCK IN BRUSSELS

Dashes Among a Number of Children, Kills Seven and Injures Many Others.

Brussels, March 28.—A mad man ran amuck on the crowded streets of the Luxembourg and dashed among a number of children, striking them down and crying that he had come to save them the pain of living. He killed seven and wounded many more, when the father of one of the victims faced the lunatic and shot him down. The city is in mourning.

CAPTURE OF AGGY DELIGHTS DEWEY

The Admiral Believes That This Event Will End the War in the Philippines.

New York, March 28.—Admiral Dewey said: "I am extremely delighted to hear of the capture of Aguinaldo which will end the war. When the superstitious Filipinos hear that their leader is really captured, notwithstanding his charmed life, they will lay down their arms."

STATE TO GATHER THE CROP REPORTS

Bulletins Will Be Distributed Free of Charge to All Who Apply for Them.

Madison, Wis., March 28.—Secretary John M. True of the state board of agriculture is preparing a set of blanks to send out to correspondents in every county in the state to get the monthly crop reports provided for in the bill recently passed by both houses. This will be a new and important work for the board, and Secretary True plans to make it comprehensive and of great value to the people of the state, business men as well as farmers.

He is selecting correspondents in every county and he will have at least two in each county, and in the larger counties where the circumstances seem to warrant it he will appoint more. They will make monthly reports to the board of the rainfall, the weather, the condition of the crops and the presence of injurious insects and worms and the probable yield of the crop and any other information which may be of value.

This information will be digested and given to the public in monthly reports which the state is to print and distribute free to all persons who are interested and to all public libraries. The first report will be out about May 1.

SO MANY RUMORS RAISE SOME DOUBT

Washington Officials Puzzled by Conflicting Reports from China.

RUSSIA NOT GRABBING

Czar Denies He Has Any Intention of Acquiring Province of Manchuria.

NEWS IS ANXIOUSLY WANTED

Washington, March 28.—The officials in Washington do not know definitely what has happened in China or in St. Petersburg about the Manchurian treaty. There are many rumors, and the dispatches are contradictory. Some of them say that China has bolted and that the emperor has issued an edict forbidding Yang Yu to sign. That comes officially for the Japanese minister from the foreign office at Tokio. It is at least certain that he did not sign before the expiration of the time allowed by the Russians. If Great Britain has entered a protest, as reported, there is no official information on the subject, but the story is not improbable and may explain why Yang Yu withheld his signature. England and Japan, as well as the United States, have advised China not to make the treaty. We are also told that the Russians have agreed to several important modifications, but that is officially denied, and without more definite advice it is impossible to comment intelligently upon the situation, and it is useless to speculate on the probabilities. Almost anything is likely to occur, and definite information is expected at any moment. The President and Secretary Hay are satisfied that they have done their full duty, and that the policy they have adopted is the wisest for the interests of this country. The attitude of this government is as well known as its geographical location, and the assurance of Russia that the treaty does not deprive our people of any commercial advantages is sufficient, although it would be more satisfactory if it were in writing.

RUSSIA NOT GRABBING LAND

Count Cassini Formally Disavows Interpretations of Manchuria Pact.

Washington, March 28.—Russia has again formally disavowed any intention to acquire Manchuria or other Chinese territory. Count Cassini, the Russian ambassador, has reiterated to Secretary Hay the assurances heretofore given that if the action of the other powers does not prevent it Russia will, as soon as peace and order are restored in Manchuria, withdraw her troops. He has furthermore informed Mr. Hay that the convention which Russia has negotiated with China specifically announces that Russia proposes to restore Manchuria to China immediately upon the return of normal conditions. The convention, he says, is solely for the purpose of facilitating the restoration of order and the future protection of Russian rights heretofore authorized by China.

NEBRASKA STATE DEADLOCK BROKEN

Gov. Deltrich and J. H. Miller Elected as U. S. Senators—All Other Candidates Withdrew.

Lincoln, Neb., March 28.—Governor Dietrich and J. H. Miller of Omaha this morning were elected for the short and long term senatorship respectively. Thompson, Rosewater and the other candidates withdrew.

MACHINE COMPANY PLAN IMPROVEMENTS

The Janesville Machine company are contemplating extensive improvements in their plant during the coming summer. They are figuring on erecting a large three story brick warehouse at the corner of South River and Pleasant streets, which will cover the ground occupied now by old frame buildings.

The buildings will cover a piece of ground about 100x210 feet with railroad side tracks running into it. This will give them a chance to load cars without having to take the goods out of the warehouse, which will be of great benefit to them. This building will be a great improvement to the part of the town in which it is to be located.

E. Ray Lloyd of this city has sent a challenge for a bag punching contest to W. Winters of Sandusky, O., who claims to be the champion of the world. Experts who have seen Lloyd's work say that he has no superior in the country.

REVOLUTION MAY BE IMPENDING

German Kaiser Warns His Troops To Be Ready To Crush Rebellion Should It Appear.

Berlin, March 28.—The kaiser today in a speech to his soldiers suggested that a revolution might be impending in Germany and warned his troops to be ready to crush it.

Internal Revenue Growing.

Washington, March 28.—The monthly statement of the collections of internal revenue show that for the month of February, 1901, the total collections were \$22,660,437, an increase of \$1,850,71 over the corresponding month last year.

SANDY DINGWALL IN SOME DANGER

Theatrical Manager Shot in New York Suffers a Relapse—Too Weak To Extract Bullet.

New York, March 28.—Alexander Dingwall, Jacob Litt's manager, who was shot while defending May Buckley, the actress, on Friday, is in a critical condition. Roosevelt hospital surgeons say today that he is very low and express great uneasiness. One of the bullets entered Dingwall's shoulder and ranged down into his chest, where the surgeons have been unable to locate it even with the use of the X-ray.

It is feared that his lung may be punctured. Mr. Dingwall is too weak to permit a further exploration or an

MOROCCO YIELDS TO UNITED STATES

Will Satisfy American Claims by Usual Diplomacy, and Cruiser New York is Ordered to Manila.

Washington, March 28.—"Moral pressure" has quick effect upon the Sultan of Morocco and he is now willing to discuss and satisfy the American claims in the customary diplomatic fashion. Hence the Cruiser New York, whose presence at Tangier has brought about the surrender, was today ordered to Manila at once.

Consul-General Gummere, said an official of the state department today, "was told that obstacles were purposely placed in the way of his access to the court, hence the orders to the New York. Now he has received assurances that the reason of the departure of the court from Morocco was to pay a long due visit to another

section of the country. It has also been promised that he court will return within a month or six weeks and will receive Mr. Gummere, probably even at Mazagan, thus obviating the necessity on his part for an overland journey to the capital.

"In this view of the case, and the navy department having stated that the New York will be badly needed in the East to take the place of the Newark as a flagship, it was decided to let the vessel at once proceed on her voyage."

Mr. Gummere will probably now enter into communication with the Moorish government to secure another appointment for a meeting.

BENEFACITOR TO THE DAIRY WORLD; STATE HONORS DR. S. M. BABCOCK

Bronze Medal of Honor Presented to Him at Madison Last Night—Speeches Made by Ogden H. Fethers and Other Notables.

Madison, Wis., March 28.—In the presence of both houses of the legislature and with Governor La Follette presiding, Professor S. M. Babcock, professor of agricultural chemistry, assistant director and chief chemist of the agricultural experiment station of the university of Wisconsin, was last night formally presented with the medal given to him by the state of Wisconsin for giving to the world his many inventions in dairy machinery, particularly the Babcock milk test.

The exercises were held in the assembly chamber in the presence of a large gathering including practically the entire university faculty. The presentation speech was made by Ogden H. Fethers of Janesville, Dr. Babcock making the reply.

Other speeches were made by ex-Governor Wm. D. Hoard of Fort Atkinson for the state, Senator W. H. Hatton of New London, and Assemblyman C. H. Gillman of Mondovi for the legislature and Professor W. A. Henry, the dean of the agricultural college for the university.

The medal is the largest ever struck in England, special machinery being required in its manufacture. It was purchased through an appropriation made by the legislature two years ago.

Babcock Born in 1843.
Dr. Babcock is professor of agricultural chemistry in the agricultural college and assistant director and chief chemist of Agricultural Experimental Station. He was born in 1843 at Bridgewater, N. Y., and graduated from the Clinton Liberal Institute in 1862, and from Tufts college, Mass., 1866, with the degree B. A. From 1872 to 1875 he was a student in chemistry at Cornell university. In 1876 he began advanced chemical work at Goettingen, Germany, taking his Ph. D. degree in 1879. He was instructor in chemistry in Cornell university from 1875 to 1877, and again in 1881-82. In 1882 he was appointed chemist of the New York State Agricultural Experiment station, Geneva, serving until 1888, when he accepted a similar position in the University of Wisconsin in the Agricultural college. In June, 1900 Dr. Babcock was made assistant director of the Wisconsin Agricultural Experiment station.

An Important Discovery.
In 1897 in conjunction with Dr. Russell there was announced what was without doubt the most important discovery concerning milk in modern times. These investigators found that milk contains a digestive ferment somewhat resembling the secretions of the pancreatic organ of the animal body. To this agent they gave the name "galactase." Heretofore the ripening of cheese has been explained as due to the action of bacteria; these investigators tell us that it is galactase and not bacteria which causes newly made cheese to gradually "break down and become digestible." Continued studies by these investigators growing out of this discovery have recently culminated in a proposed new method of curing cheese.

This is to place the cheese as soon as made in rooms held at much lower temperatures than those that have been used for ripening. The bacterial organism in the cheese fail to develop under these conditions while the galactase continues its digestive action. This process results in producing a thoroughly broken down but mild flavored cheese. The flavor can then be intensified by exposing the cheese to higher temperatures before it is placed on the market. Practical cheese men have shown the keenest interest in these investigations.

To Detect Tainted Milk.
Working in conjunction with Dr. Russell and Mr. J. W. Decker, a graduate of the Wisconsin Agricultural college and now professor of dairying in the Ohio State university, there was devised a most ingenious method of detecting tainted milks at creameries and cheese factories, which is now known as the "Wisconsin Curd Test." The curd test enables the cheese maker to quickly detect any lot or lots of bad milk brought by patrons of the factory, and avoiding these, good cheese can be made. Conservative estimates by those in position to know the importance of the test place the value of this one discovery to the state of Wisconsin alone at far in excess of the cost of the agricultural college in all its departments.

Dr. Babcock is best known to the dairy world, however, as the inventor of what is known as the "Babcock Milk Test," a quick, simple and accurate

method of determining the fat in whole milk, skim milk, cream, buttermilk, whey and cheese. Until recent times each dairyman manufactured the milk of his own herd into butter on his own farm and disposed of the product as best he could.

The invention of centrifugal separators made associated dairying possible. The milk from fifty farms can be brought to one central point where one of these machines are in operation, and the cream removed, leaving the skim milk to be carried back to the farms where it may be fed to the calves and pigs. Then the workmen convert the cream into butter which goes on the market as creamery butter.

Where Farmers Get Benefits.

The only way to divide the money at co-operative creameries was to weigh the milk and give each farmer his share of the earnings in proportion to the weight of the milk delivered. But here was the trouble. One farmer kept cows whose milk was very rich in butter fat, while the milk from another herd might be low in that constituent, and butter fat was what the creameries wanted. Since some milk might yield five pounds of butter to the hundred weight while that of other herds contained only three pounds of butter to the hundred, it will easily be seen that the farmers having the best cows knowing these facts in a general way, would refuse to pool the products of their herds with those of their neighbors having poorer cows.

The only way to do justice was to obtain analyses of the milk and in those days this could only be done by sending samples to skilled chemists whose laboratories were in the cities often far away. This was practically an impossibility. Again these high speeded centrifugal separators, would only do good work in removing the fat from the milk when all the operations were correctly conducted. If the milk was fed into the machine too rapidly, if it was not kept at the right temperature, or if the bowl revolved too slowly, then considerable butter fat escaped with the skim milk and was lost.

Therefore in order to prevent heavy losses not only did associated dairying call for the weighing and analysis of the milk of each patron of the factory separately, but for frequent analysis of the skim milk as it escaped from the separator. Then in churning, the operating through ignorance or carelessness, might allow large quantities of fat to escape in the buttermilk.

Millions Saved to State.

The average milk turned in at Wisconsin creameries contain about four per cent. fat. In older times when milk was set in shallow pans and the cream removed the skim milk remaining usually contained at least 5-10 of one per cent. fat, or about one-eighth of all the fat originally in the milk. Before the discovery of the centrifugal machine many farmers poured the fresh milk into deep tin cans and set these cans into tanks of ice water that the cream might rise. Under this system the loss of fat was usually from 6 to 8 per cent. of the total amount contained in the original milk.

When centrifugal separators are properly used they not only enable a single operator to skim thousands of pounds of milk in a few hours, but they reduce the loss of fat to as low as 2 per cent., or less, of the original quantity of the milk. Until the Babcock test was in use no operator of separators was in position to know how closely the separators under his charge were working, and in a large factory the loss through poor or defective skimming could easily amount to \$10 or \$15 per day, and such losses were actually occurring in many cases.

As the creamery output of Wisconsin is from twelve to fifteen million dollars annually, it will be seen that 5 per cent. saved amounts to at least \$600,000 a year. Mr. O. Sands, president of the Elgin Creamery company, and manager of a syndicate of 130 creameries, recently made the statement before the Claims committee of the Wisconsin legislature, that to the best of his judgment the Babcock milk test saved to the creameries of Wisconsin \$1,200,000 annually. He further stated that in the business of his own company the test effects a saving over what would be possible without such a test of at least \$150,000 annually.

later plays has the public shown the interest that it has in "Ole Olson," hence the present season's revival. The presenting company is a strong one and the specialties are all new and up to the minute. One of the principal features of the performance this season is the singing of the National Swedish Ladies' Quartette.

"Rupert of Hentzau," Anthony Hope's romantic tale of love, hatred and intrigue, which is to be seen at the Myers tomorrow night, has been given an elaborate production under the auspices of Daniel Frohman. The company engaged to support that

sterling young romantic star, Mr. Howard Gould, is from the Lyceum Theater, New York, and is said to be a most competent one. The scenic investiture is that used in the initial production at the Lyceum Theater, and is said to be the handsomest of any recent Lyceum presentation. Costumes and accessories are on a similar scale, and the entire production is of the characteristic Frohman standard.

"Arizona," the biggest success of the present New York season, has been secured by Manager Myers for April 8. Congratulations are certainly in order, for "Arizona" is an elevating as well as a fascinating play, its story being that of love, duty and honor. It is the story of a rancher's daughter marrying a cavalry colonel, and tiring of the inattention shown her, she plans, or rather is forced, to submit to the planning, of Capt. Hodgman, to flee with him and leave the stifling sands of Arizona forever. The plan is balked by the daring conduct of Lieutenant Denton, the special friend of the husband, Col. Bonham. As to be expected, the situation turns against Denton and Hodgman escapes for the time being even the suspicion of guilt, only to 'get it' at the end.

Humane Society Meeting.

The meeting of the Humane society Friday night at the First M. E. church promises to be of considerable interest. Short addresses will be made by Rev. W. A. Hall, Rev. R. C. Denison, J. J. Cunningham, and others. Everyone who loves their dog or horse will be interested in this meeting. The public are invited.

WISCONSIN GIRLS ARE DOING WELL

Local friends of the family of John Weisend will be interested to know that the two daughters of the household are meeting with success in the work which they have chosen. Miss Sophie Weisend, the elder daughter, is a teacher in the Wisconsin Conservatory of Music in Milwaukee, and Miss Elizabeth is teaching in one of the primary departments of the Racine public schools.

Miss Sophie was graduated from the Janesville high school in the class of 1896. She is a talented young lady and while she lived here she was recognized as a musician of more than ordinary ability. She studied music with Mrs. J. F. Sweeney and for years was the organist at St. Mary's church. She played exquisitely and was much in demand as an accompanist and as a soloist on concert programs. After leaving the high school her health failed her and for some time she was obliged to abandon the study of music. She suffered from nervous prostration for some time but finally regained her strength and returned to her studies. She took the course at the Wisconsin Conservatory of Music and finished with the honors of her class last June. In the fall she entered the conservatory as a teacher, the distinctive recognition of her rare ability being a compliment of which she may well feel proud.

Miss Elizabeth Weisend was a member of the Janesville high school class of '98. This year she has finished the course at the Milwaukee Normal school, graduating at the half year in February. She made a specialty of languages and has been promised a high school position at South Milwaukee next year. Meanwhile she has been substituting in the Milwaukee graded schools. One of the Racine teachers was taken ill and Miss Weisend was sent to substitute for her. She will remain at Racine the balance of the year.

DEATH CAUSED BY HIS CARELESSNESS

Verdict of the Coroner's Jury in the
Case of John Vollmuth—De-
tails of the Inquest.

A coroners' jury consisting of J. L. Bear, John C. Spencer, C. E. Brown, Charles Curtis, William Brown and H. W. Perrigo met at Justice Earle's court at four o'clock yesterday afternoon and listened to the testimony of witnesses of the death of John Vollmuth, who was killed by a Chicago, Milwaukee & St. Paul passenger train on Sunday morning last.

Dr. Joseph B. Whiting, Jr., was the first witness. He saw the deceased in a St. Paul baggage car on Sunday morning about ten thirty o'clock. He was unconscious and was placed on a stretcher and taken by the patrol wagon to Miss Henderson's hospital where he died shortly after arriving. He examined Vollmuth at his home on Monday and found him well nourished for a man of his age. He should think that he was about sixty years of age. His right hip was crushed, including the head of the thigh bone. The pelvis was fractured through the right ilium and the left hip dislocated. His death was caused by the force of the blow that he received.

Niel Hagany, a boy about eleven years old, who resides with his parents at 52 St. Mary's avenue, was present at the time of the accident and saw Vollmuth killed. He crossed the track at St. Mary's avenue ahead of Vollmuth, who was walking slowly. A freight was going out on the Northwestern and he ran across ahead of it and Vollmuth followed but stopped on the St. Paul tracks to look at the freight.

He saw the passenger coming when it was at a cattle guard a short distance away. He looked around at Vollmuth and saw him standing with one foot inside of the rail and one outside. He saw Vollmuth's danger and hollered at him and motioned for him to come on but did not catch hold of him. He looked around just as the passenger struck him. Hagany did not think that Vollmuth saw the passenger train as he did not see him look in that direction. He was about five feet from Vollmuth when the engine struck him and it knocked him about ten feet. He heard the whistle when the train was about 120 feet away but thought that the Northwestern engine was puffing so hard that Vollmuth did not hear it. The passenger was coming at full speed and Vollmuth was walking slowly.

W. E. Wilson, engineer of the passenger train said that they left Milton at 10:10, a few minutes late, they had three cars. When they approached the crossing he saw a man on the track. He was looking at a freight train going out on the Northwestern. He immediately applied the air and blew the danger signal up to the time his engine struck the man. The man was about three hundred feet from him when he first saw him and put on the air and blew the danger signal.

He never looked around and stood with his back toward the engine. The pilot struck him and threw him about ten feet. The train was running about ten miles an hour when they hit the man and he stopped it within four car lengths after killing him. He saw the boy motion to the man, but he paid no attention to him. The conductor and a man that lived in Beloit were the first men back to where the man was lying.

Michael Dorsey, the fireman on the engine saw the man standing on the track with an umbrella in his hand. A boy ran across the track ahead of him and he stopped on the tracks with his back to the engine and acted as if he did not see us.

He went out of my sight when the engine was within thirty feet of him. He asked the engineer if he had struck him and he nodded his head to say yes. The engineer put on air as soon as he saw the man, who would have been out of danger if he had kept on walking and hadn't turned around to look at the freight. There was nothing to prevent Vollmuth from seeing the train coming for a quarter of a mile.

W. J. Spencer was the conductor of the train. He was in the baggage car at the time of the accident. He heard the whistle and felt the air. He looked out one side of the car but could see nothing as he was on the wrong side at the time, and by the time that he got the other door open it was all over and the train was almost stopped. The train was running about ten miles an hour at the time. He ran back and helped pick Vollmuth up and put him in the baggage car. He was unconscious but was breathing.

This was all of the witnesses and the jury after considering the testimony brought in the following verdict:

"John Vollmuth came to his death on March 24, 1901, at the city of Janesville, Rock county, Wisconsin, by reason of being struck by a passenger train on the Chicago, Milwaukee & St. Paul railway; and that he was so struck by reason of his own carelessness."

"Boy Mrs. Austin's Famous Wheat Food, rich in phosphates and gluten. All grocers sell it."

AMUSEMENT NOTES

When a play becomes familiar with play goes its reappearance is always heralded with more than usual interest. Such a play is "Ole Olson," with Ben Hendricks in the title role, which appear of the Myers tonight. "Ole Olson" has been entirely rewritten this season and will no doubt prove as equally interesting to those who have seen it as to those who have not. Mr. Hendricks, the star of the aggregation, has been here before, in this and in other plays, viz: "Yon Yonson," and last season in "A Yenuine Gentleman." In neither of these

MISS STODDARD'S PUPILS' RECITAL

An Interesting Entertainment in the Parlors of All Souls Church Last Night.

The parlors of All Souls church were filled with the parents and friends of the children who are studying elocution and physical culture with Miss Gertrude Stoddard. The occasion was a pupils' recital and an entertainment by children; especially when one has a personal interest in them, is always pleasing. There was great interest taken in the program of last evening.

Miss Stoddard and her pupils were very nicely assisted by Miss Pearl Willey, who gave two vocal solos, and by Chas. D. Evans, the talented blind musician, and his little daughter, Miss Norma. The little maiden plays the violin excellently and her duet with her father were heard with such pleasure that encores were demanded by the audience.

The balance of the program was composed of recitations given by Miss Stoddard's pupils and in which they showed not only their own ability but also the careful training and excellent instruction which they had received from their teacher.

The concert recitation "The Little Black-Eyed Rebel" by one of the juvenile classes was well given and in its rendition this careful training showed off most effectively.

Lottie Charlton recited Riley's "Man in the Moon" in a very cute and pleasing manner and little Cora Holt was charmingly demure in her excellent rendition of "Little Christel." Mary Gage recited the dramatic selection "Jane Conquest" very capably, Belle Ehringer was equally good in "Catching the Cat" and the audience was delighted in the natural manner in which Emma Shoemaker told "The Hatchet story."

Florence Evans recited the "Clown's Baby" prettily and Alta Berg was bright and pleasing in her recitation, "The Truant Sunbeam." The strongest number on the program was "A Leak in the Dyke," which was well given by Mabel Charlton and one of the cutest numbers was "Reminding the Hen," in which Bradley Conrad showed marked talent for reciting. "The Cobbler's Secret" was nicely given by Estella Arndt and Mabel Richards well-merited the applause which she received for her recitation, "The Maiden Martyr."

The majority of those who took part in the recital are little tots who made their first appearance in public last evening. Great credit for the pleasant success of the recital is due them and their teacher.

CONTESTS FOR THE LOOMIS MEDAL

The Loomis medal, awarded annually in declamatory contest at the High school, will be won this year by one of the following students: Eureka Kimball, '02; Lucy Bigelow, '02; Archie Reid, '03; and Hattie Decker, '04.

The inter class contest for the selection of these final contestants, was held in the High school auditorium after school yesterday. Superintendent Mayne presided, and the judges were Mrs. F. A. Capelle, W. S. Jeffries and M. P. Richardson.

The contest was an excellent one, and the program possessed the noteworthy merit of being composed almost entirely of new sections. Many of the numbers were scenes from popular books, and this added much to the interest and spoke well for the literary development which these contests have stimulated. The contestants acquitted themselves creditably, and almost without exception showed marked ability. The following was the

PROGRAM.
"The Race".....From "Black Rock"
Josephine Fulton, '03.
"The Bull Fight".....From "Quo Vadis"
Harold Hall, '03.
"Prior to Miss Belle's Appearance".....Riley
Daisy MacLean, '04.
"The Rose of Rome".....
Hazel Willey, '01.
"The Shepherd's Trophy".....From "Bob, Son of Battle"
Archie Reid, '03.
"The Bridge of Munkers".....Frank Fisher, '04.
"The Bear Story".....Riley
Hattie Decker, '04.
"Helene Thams".....
Eureka Kimball, '02.
"Execution of Sidney Carton".....
From "The Tale of Two Cities"
Joseph Fisher, '01.
"How the La Rue Stakes Were Lost".....
Lucy Bigelow, '02.

The preliminary contest in extemporaneous speaking is being held this afternoon, commencing at 4:30 o'clock.

Weakened systems need a mature wholesome, mellow liquor. That's precisely what the I. W. HARRIS Whiskey is. Perfect as beverage or medicine. Absolutely pure. Sold by Kehoe & Cullen, Janesville, Wis.

Take Rocky Mountain Tea. See it exterminate poison. Feel it revitalize your blood and nerves and bring back that happy, joyous feeling of boyhood days. 35c. Sold at Smith's pharmacy, kodak agents, next to postoffice.

MAGNOLIA.
Magnolia, March 27—Mr. N. B. Segers, of St. Paul, Minn., is spending a few days in this place.

The mite society meeting last Thursday at Mrs. Bert Townsend's was well attended. The next one will be held at Mrs. Clyde McCoy's. The little four year old son of Mr. and Mrs. Frank Erdman died yesterday morning of pneumonia.

Mr. and Mrs. George Bass celebrat-

ed their eleventh wedding anniversary last Saturday night. Notwithstanding the rain a goodly number were in attendance. A good supper was provided and many beautiful and useful presents were left as tokens of love and friendship.

The Ladies' Aid Society will furnish a fifteen cent dinner at Mrs. Clyde McCoy's on election day.

The farmers are taking down the tobacco hanging in the shed. The late rain has brought it into case and now it will soon be stripped.

The children are busy rehearsing for Easter. The services will be held at the Advent church.

Mr. and Mrs. Mattice and Mr. and Mrs. Frank Wells, of Footville, attended the party given by Mr. and Mrs. Geo. Bass Saturday night.

Mrs. Frank Green and son Bennie returned from a week's visit in Evansville Saturday.

Mrs. Gussie Gardner and little Nellie of Center attended the mite society last Thursday. We are always glad to welcome them here.

Mr. Anton Cole and family are settled with us again and all are well pleased. Mr. Cole is at home in the creamery and can't be beat for making good butter.

Acheson and Cain are busy at their trade of paper hanging and painting.

Edna Elger and little son Sundayed at her mother's, Mrs. Marcia Clifford's.

Low Rates to California and Back

This Summer, An illustrated book, which will be of much interest to all who are expecting to take advantage of the low rates to California this summer, at the time of the Epworth League Convention, to be held in San Francisco in July, has just been issued by the Chicago & North-Western Railway. Much valuable information is given relating to the state, variable routes, etc. The rate via this line will be only \$50.00 for the round trip from Chicago, with corresponding low rates from other points. Copy of this book may be had free upon application to W. B. Kniskern, 22 Fifth Avenue, Chicago, Ill.

"Try a package of Mrs. Austin's Wheat Flour, fine for breakfast, delicious for dessert, sure to delight."

Burglars Rob and Kill.
New Orleans, La., March 28.—John Favalona and his daughter Annie were discovered dead in their home on Perdido street. They had been murdered by burglars, and the assailants ransacked the premises after killing their victims.

The Truth

Is told by most people. If it were not, the whole commercial and social fabric would fall to pieces. There are thousands upon thousands of people who testify to the cures effected by Dr. Pierce's Golden

Medical Discovery. They are representative people in their communities. You would believe their word on any question of knowledge. They speak the simple truth when they testify that Doctor Pierce's Golden Medical Discovery cures dyspepsia, "weak" stomach and other diseases of the stomach and its allied organs of digestion and nutrition. It cures when all other remedial means have failed. It cures perfectly and permanently. There is no alcohol in the "Discovery" it is free from opium, cocaine and all other narcotics. Accept no substitute for Dr. Pierce's Golden Medical Discovery. There is nothing "just as good."

"It was a total wreck—could not eat or sleep," writes Mr. J. C. Beers, of Berryman, Crawford Co., Mo., for two years I tried medicine from doctors, but received very little benefit. I lost flesh and strength, was not able to do a good day's work. I commenced taking Dr. Pierce's Golden Medical Discovery, and when I had taken one bottle I could sleep, and my appetite was wonderfully improved. I have taken five bottles and am still improving."

Dr. Pierce's Medical Adviser, paper-covered, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Nasal CATARRH
In all its stages there should be cleanliness. Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drugists or by mail, Trial Size, 10 cents by mail. ELY BROTHERS, 36 Warren Street, New York.

The Seat of Life

Is in the nervous system, the most delicate and important part of the whole body. When the nerves become weakened or diseased, the head aches, the circulation is retarded and the digestion is deranged. Little things irritate the temper and worry the mind, which only aggravates the disease until the whole system breaks down, and nervous prostration is followed by insanity or death. Strengthen and build up the nerves and stop this downward course before it is too late.

"My trouble began with aching pains in my arms and legs, headache, indigestion, constipation and palpitation of heart until I became so nervous and run-down that I could not find relief until I commenced taking Dr. Miles' Nervine. It gave me wonderful relief, and finally restored my health, for which I am very thankful."

SAMUEL HARMAN, Crystal, Mich.

Dr. Miles' Nervine

strengthens the weakened nerves, rests the tired brain, gives zest to the appetite and puts new vim and vigor into the whole system. Begin to-day to get new life. Sold by druggists on guarantee. DR. MILES MEDICAL CO.

WHAT OF CHINA.

If late dispatches are confirmed, the partition of China seems inevitable. Russia is not disposed to release her hold on Manchuria, and the greed of other nations is an effective bar to a protest. The United States very wisely declines to interfere, and the present outlook indicates that England, Germany, Japan and France, will share with Russia, permanent possessions of greater or less magnitude in the Celestial Empire. If the program is carried out it will be the beginning of the end of the strongest nation on earth, numerically.

Under the conditions that brought about this wonderful transformation a good deal of sympathy will naturally be expressed and much of this sympathy will be of the sentimental sort.

If the God of Nations continues to direct the march of civilization, His hand will be recognized in the revolution now going on in China. The contending powers, of course, are not prompted by a desire to aid in carrying out a divine mission. Conquest for gain is the only motive. But with the conquest, comes as a natural sequence, enlightenment, progress and civilization.

The rank of Confucius, 400,000,000 strong, will be broken up and the dense ignorance and superstition, that for many centuries has enveloped the empire will be dispelled by enlightenment and the steady march of progress.

Railroads and other evidences of civilized life will develop rapidly. The Christian missionary of every creed, will find ready access to the people that they have struggled to reach for a hundred years.

Old China will give place to New China and the newness will be of the improved and better type. It is well that America is not a party to the scramble for territory. The attitude of this country will be appreciated, and her influence for good in the years to come will be felt in China to a greater extent than though she had joined the ranks of contending nations.

The Whitewater Register, one of the old conservative republican papers, makes the following editorial comment:

"After an all night session under call of the house, the bill was yesterday ordered to a third reading. The gag rule was applied, no debate was permitted and a committee substitute, which even some members of the committee admit they had not read, was practically disposed of so far as the assembly is concerned. Thus do the exponents of the new reform (2) in Wisconsin, deal with the most important matter which the legislature will have to consider this winter."

There isn't a self respecting paper in the state that attempts to defend the action of the assembly in its mad rush for conquest. That legislative body went out of its way to invite criticism, and it succeeded beyond the most sanguine expectations.

The primary law has gained nothing in popularity during the past week. The Green Bay Gazette was supporting the measure until quite recently, but now concludes that "the manner in which the primary election bill was rushed through the assembly will not appeal to the people of the state as conducive to the best interests of the state at large. If the bill will not recommend itself after a discussion of its merits and demerits, it should not pass." And the fact that an organized opposition had been formed against its passage does not excuse the enforcing of the gag rule."

Many other changes of republican press sentiment are noticed. The methods employed in handling the measure have made it unpopular with fair minded people, as well as with the press. The legislators will do well to remember that Wisconsin is west of the Missouri river.

The plan headed Bryanistic press of the state is engaged in an onslaught on the Milwaukee Journal, because that paper attempted to draw out and crystallize a little sound money democratic sentiment. These deluded journalists imagine that the Milwaukee organ in its attempt to be loyal to democracy is an enemy of pronounced type. The Milwaukee Journal may be obliged to trot in a class

by itself for a while, but it will have plenty of company after Bryanism dies the natural death that is the common lot of all such crazy fads.

Whether the Chicago Record has absorbed the Herald, or the Herald the Record, the combination is a good thing for the Herald. The Record was a money maker. It will not injure the Herald politically, because it was destitute of political opinion. If the Herald will adopt the same political policy it will increase in popularity. It has never been loyal to the republican party, and the civic federation will never be strong enough to divide honors with the Tribune.

This time it is the American shoe that is pinching John Bull's foot, and "Enterprise" is the open sesame.

CELEBRATED HER 98TH BIRTHDAY

Mrs. Susan D. Crossman, Mother of B. P. and George W. Crossman, Has Reached Extreme Age

Mrs. Susan D. Crossman, mother of B. P. Crossman, of this city, celebrated her 98th birthday today at the home of her nephew, John C. Eddy, of the town of Rock. Mrs. Crossman was a native of Massachusetts and came west in 1844 with her husband, Warren Crossman. In 1848 they settled on the farm on which they resided until Mr. Crossman's death in 1880 and on which Mrs. Crossman celebrated her birthday today.

Mrs. Crossman's general health is good and she bids fair to round out the century ere she closes her eyes on earthly scenes. Her mind is very clear on the events of the early days of Wisconsin's history with which her young womanhood was so closely identified. Her memory is excellent and she is quite active physically.

Her son B. P. Crossman spent the day with her and it was with the deepest regret that her son George was not present to assist in the celebration. He has been very ill for some time past and is still confined to the house with rheumatism in the ankle. He is improving rapidly however and hopes to be out soon.

Mrs. Crossman has a wide circle of friends in this city as she has made her home with her sons ever since her husband's death. She is certainly entitled to hearty congratulations on having reached such a rare age, in such good health.

MURPHY LEAGUE MASS MEETING

It Will Be Held in the Y. M. C. A. Auditorium on the Afternoon of Easter Sunday.

Members of the Francis Murphy Temperance league are planning for a grand mass meeting to be held in the Y. M. C. A. auditorium on the afternoon of Easter Sunday, April 7. The meeting will be open to the general public and ladies and children as well as men are invited to attend.

It has been some time since the league has held a general meeting; its monthly service being usually for men only. The ladies are glad of an occasional opportunity to attend a meeting of the league and show their interest in the work and they will be pleased to hear of the meeting which is being planned for Easter Sunday.

An extra effort will be made to have the meeting one of unusual interest and profit. Some splendid speakers have already been secured and a special musical program will be prepared.

JOIN ORDER OF FOREIGN WARS

Army Men at Milwaukee Form Branch of Organization.

Milwaukee, March 28—A new military order found a foothold in Wisconsin yesterday, of which a Wisconsin branch was organized at the Hotel Pfister yesterday afternoon. The new society starts forth with a membership of twenty-six, with General Charles King at the head as commander. The other officers are:

Vice commander—Captain J. E. Nemitz, Oshkosh.
Secretary—Captain J. B. Dally, Milwaukee.
Treasurer—Captain H. C. Barker, Madison.
Register—Lieutenant E. C. Barnes, Ripon.
Judge advocate general—Major R. A. Richard, Sparta.
Surgeon—Captain F. C. Moulding, Watertown.
Chaplain—Captain B. H. Smith, Oshkosh.
Deputy secretary—Lieutenant Marshall Cousins, Eau Claire.
Council of administration—Major C. P. Hunter, Fond du Lac; Major W. P. Greene, Marinette; Lieutenant C. R. Williams, Camp Douglas; Colonel H. M. Souman, Milwaukee; Lieutenant Colonel A. Solliway, Watertown; and Lieutenant Colonel Otto Falk, Milwaukee.

It is not so much what the newspapers say, as what neighbor says to neighbor, or friend to friend, that has brought Chamberlain's Colic, Cholera and Diarrhoea remedy into such general use. It is as natural for people to express their gratitude after using this remedy as it is for water to run down hill. It is the one remedy that can always be depended upon, whether a baby be sick with cholera infantum or a man with cholera morbus. It is pleasant, safe and reliable. Have you a bottle of it in your home? For sale by People's Drug Co. and King's pharmacy.

SUDDEN DEATH OF HELEN M. WEBSTER

Dropped Dead at the Home of Her Sister in Chicago—She Was Well Known Here.

Mrs. Helen M. Webster, who for many years was a highly esteemed resident of this city dropped dead on Tuesday morning at 7 o'clock at the home of her sister, Mrs. A. R. Jackson, Cottage Grove avenue, Chicago. Her death was due to heart disease and came without warning while she was on her way from her room to the bath room.

Deceased was the youngest daughter of the late Noah Webster of this city, and was born at La Porte, Ind., on Nov. 8, 1835, thus having completed the sixty-fifth year of her life. When she was thirteen years of age her father moved to Rock Prairie and three years later the family came to this city to reside. On the 7th of Sept., 1859 she was married to the late B. G. Webster and she and her husband resided at Ripon, Wis., until 1873 when they came to this city to make their home. Mr. Webster was in poor health and five years later he died. Mrs. Webster has resided here until the last few years, her home being at 157 South Jackson street.

Mrs. Webster was a devout member of the Baptist church and was a most estimable woman. She had a large circle of friends here who will sincerely mourn her death. Of the five children born to her, only the eldest, Frank N. Webster, who resides at Milwaukee, survives her. One stepson, William A. Webster of Chicago, also mourns the loss of one who was the only mother that he ever knew, his own mother having died when he was only three months old.

Mrs. Webster's remains were interred at Ripon. The funeral services were held in that city.

ANOTHER LIE NAILED.

Brown Bros. Make Strong Denial to Certain Rumors Circulated About Town.

Brown Bros., the well known local shoe merchants make strong denial to a report circulated to the effect that they do not include at next Saturday's sale every pair of shoes in their store at \$2.98 per pair. The report circulated was to the effect that Brown Bros. intend to reserve certain stock. A member of the firm said this morning: "Our sale Saturday includes every pair in our stock. This means the Douglas at \$3.50 and \$4 as well as the celebrated Royal Blue which sell the world over at \$3.50. Nothing is reserved at this sale which opens Saturday morning at 10 o'clock. Plenty of extra help. No one disappointed."

Auction! Auction!

The entire stock of the late C. H. Belding, consisting of farm implements, carriages, road wagons, harness, whips, oils, grease, etc., will be sold at public auction at the old stand, No. 8 North River street, Janesville, Wis., March 30, 1901, at one o'clock p. m.

O. F. NOWLAN,
Administrator.

W. T. Dooley, auctioneer.

Pleasant Afternoon Party.

A pleasant afternoon party was held at the home of Mrs. Marion P. Leavitt, 208 North Jackson street, yesterday, a few of Mrs. Leavitt's most intimate friends enjoying her hospitality. The party included twelve ladies and the time passed merrily at the card tables, where duplicate whist was the game indulged in. An elaborate and delicious supper served at six o'clock. The company was an especially congenial one and the ladies had a rare good time.

Too Much Smoke.

SUPT. HURD STOPS MOVING OF A HOUSE

Claims Building F. L. Clemons is Bringing Down North Main Street Damages His Wires.

The work of moving a house recently purchased by F. L. Clemons from the C. M. & St. P. R. R., from the block north of Prospect avenue down Main street to Racine street, was brought to a stop yesterday afternoon just before the building reached North First street.

Superintendent Hurd of the Janesville street railway notified Mr. Clemons if he continued to try and come down Main street he would get out an injunction restraining him. The work on moving the building was discontinued and at present the traffic on North Main street is badly blocked.

Supt. Hurd claims that it would injure the wires of the company to the extent of more than \$100 and that the operation of his cars on South Main street would be seriously interfered with. He claims that in order for the building to be taken across Milwaukee street at Main street he would have to take down his trolley wire and that it is a very difficult job to get the wire on the curve hung exactly right. It is at this point that the greatest damage would be done to the wires.

In the meantime the people on North Main street are wondering how long the city will allow the building to block the street.

Mr. Clemons said that he had not yet decided what he would do in the matter, but did not think that he would go so far around.

In the meantime the people on North Main street are wondering how long the city will allow the building to block the street.

ELECTION COMES NEXT TUESDAY

Nominees of Republican Party Are All Good Men, and Deserve the Support of All Citizens.

The men named by the republican party of this city to be voted upon at the coming election to be held on April 2nd are all citizens of whom too much cannot be said. They have resided in this city for a number of years where they have been engaged in business and have made records that they can feel proud of.

Victor P. Richardson, the candidate for mayor, is at present the chief executive officer of the city. During his present term he has proved himself to be well fitted for the office and has the best interests of the city at heart. A. E. Baeger, the present city clerk, is a candidate for re-election. He has filled the office for several years and has shown himself to be a capable young man, well fitted to perform the duties of the office.

S. C. Burnham, the nominee for school commissioner at large is at present the clerk of the school board. He has had a long experience in matters pertaining to the public schools and no better selection could have been made for this office by the party.

George H. Davey is the present sealer of weights and measures and thoroughly understands the duties of the office.

C. W. Reeder, the party candidate for the office of justice of the peace is a young lawyer with all of the necessary qualifications to make a first class justice. There is no question but that he duties of the office will be taken care of if he is elected as he should be.

The gentlemen nominated by the party for the ward offices are all first-class men, the most of whom have held public offices of trust before and have shown that they are always on the watch to protect the interests of the city.

Vote the straight republican ticket and you will not go wrong. The candidates are all representative men and a vote for them means a vote for good government.

CORONOR'S JURY IS HOLDING INQUEST

Investigating Cause of the Explosion at Barb Wire Factory, Which Cost Two Lives.

A coroner's jury composed of J. C. Stanton, S. Hutchinson, A. Baker, L. Trumble, Henry Rogers and W. H. Grove, after viewing the remains of James Horn and Daniel Preller and the scene of the accident, met in Justice Earle's court this afternoon at two o'clock and listened to the testimony concerning their death.

Dr. W. H. Judd said that he examined the body of Horn at the Janesville Barb Wire Works on Monday morning, shortly after seven o'clock. He found him dead and thought that he had been dead about fifteen minutes and that death was caused by a fracture near the base of the brain.

Dr. Joseph B. Whiting examined Horn at five o'clock on Monday afternoon. He found abrasions on the left cheek, the nose was broken and the bridge partly collapsed, the right ear was black and swollen, the cause of death was a fracture of the skull at the base of the brain caused by concussion.

The jury brought in the following verdict:

"We, the jury, find that Daniel S. Preller and James Horn came to their death at the city of Janesville, Rock county, on the 25th day of March, 1901 by reason of the accidental explosion of a gasoline engine they were operating at the Janesville Barb Wire Works in the City of Janesville."

Agree to Extend the Time.

The library board committee on the securing of a suitable site has decided, at the request of several prominent citizens, to extend the time of receiving propositions for a few days longer. Twelve sealed bids have already been received, but it is rumored that as many as four different propositions have been made on one piece of property. The committee has not decided definitely on the time which will be set as the limit for receiving bids.

Northern Wisconsin Railway Farm Lands for Sale.

The Northwestern line has for sale in northern Wisconsin, at low prices, and easy terms of payment, about 350,000 acres of choice farm lands.

Early buyers will secure the advantage of locations on the many beautiful streams and lakes, which abound with fish and furnish a never ending and most excellent water supply, both for family use and for stock.

Land is generally well timbered, soil fertile and easy of cultivation, and this is rapidly developing into one of the greatest sheep and cattle raising regions in the northwest.

Chicago, Milwaukee, St. Paul, Minneapolis, Duluth, Superior, Ashland and other towns on "The Northwestern line" furnish good markets for stock and farm produce. For further particulars address Geo. W. Bell, Land Commissioner, Hudson, Wis., or G. H. MacRae, Assistant General Passenger Agent, St. Paul, Minn.

Do Not Trifle with danger—and remember every cough or cold means danger.

Shiloh's Consumption Cure

will cure your cough or cold at once. It will heal and strengthen your lungs. It is a safeguard for you always. Take it at the first indication of a cough or cold.

"A severe cold settled in throat and bronchial tubes—colds always lasted several months. I tried Shiloh and it cured me at once. Am glad to add my testimony."

Write for illustrated book on consumption. Sent without cost to you. S. C. Wells & Co., LeRoy, N. Y.

For sale by J. P. Baker Janesville

STATE NEWS IN BRIEF

Chippewa Falls—The corpse of Peter Granum of Bristow, Vernon county, was picked up on the Chippewa river, near Little Buffalo, in Eau Claire. The face was horrible to look at. A mass of ice formed beneath the coats that the man wore and as he lay on the river bank he looked as if he had a vast bundle under his right arm. The man was dressed in the garb of a laborer. The man had five shirts on. The outer one was of white flannel on the bosom of which was sewed a piece of white cotton cloth on which was worked in black the figures "903." The second shirt was striped and was of the material known as "hickory;" the third was of cheap calico, or some such stuff; the fourth was a heavy woolen undershirt and the fifth was a lighter undershirt.

Manitowoc—The annual blockade of cars in the local yards of the railroad companies is now on, and shipping is considerably behind hand. The carriers are unable to meet the demands made upon the service, and it is possible that additional boats will be placed in the run.

Oshkosh—Otto C. Jaabs, nominated by the republicans for mayor, declined to make the run and the city committee substituted W. W. Quartermass, former district attorney of Winnebago county.

Madison—The three year old daughter of J. J. Grimm swallowed several poisonous pills thinking that they were candy and died before a physician arrived. The pills contained strychnine and arsenic.

Kenosha—The residence of G. R. McDowell was burglarized and only a tray of old coins were stolen. The burglars examined but declined to carry away a watch valued at \$500 and other jewelry.

Chippewa Falls—The local passenger on the Wisconsin Central road was ditched between here and Eau Claire. Two coaches rolled down the embankment but no one was hurt.

Oscoda—Ben Lagoo and Charles Lofdahl, convicted of criminal assault were sentenced to two and three years respectively in state's prison.

Roosters often crow over eggs they did not lay. Same with people who sell an imitation Rocky Mountain Tea, made famous by the Madison Medicine Co's advertising. 35c. Sold at Smith's pharmacy, kodak agents, next to postoffice.

Racine Man Missing.—Fred Dericks, proprietor of the Wagner hotel of this city, has been missing since Monday. His property had not been paying well and it is known that he was despondent.

ASK YOUR NEIGHBOR

Hundreds of Janesville Citizens Can Tell You All About It.

Home endorsement, the public expression of Janesville people, should be evidence beyond dispute for every Janesville reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in far away places.

Read the following:

Mrs. S. L. Beiden, of 64 S. River St. says: "During two or three years I suffered most of the time with a terrible dragging down pain in my back just over the kidneys. It was very trying when I was at work, and if I did any lifting my bladder became affected, causing me considerable annoyance. I also had attacks of headaches, which seemed like congestion in the top and back of my head. When I read about Doan's Kidney Pills I did not have any too much confidence in them, but my daughter got a box at the People's Drug Co's store and persuaded me to use them. They took right hold and made a wonderful change in my condition. I hardly realized how bad I was until Doan's Kidney Pills brought me relief from the afflictions."

For sale by all dealers. Price, 50 cents. Foster-McIlhenny Co., Buffalo, N. Y., sole agents for the U. S. Also on sale at King's Pharmacy.

Remember the name Doan's and take no other.

ELECTION NOTICE.

Office of City Clerk, March 21, 1901.
City of Janesville, Wis.

To the Electors of the City of Janesville: Notice is hereby given that a municipal election is to be held in the several wards and election precincts in the city of Janesville, on the second day of April, 1901, at which the officers named below are to be chosen.

A mayor.
A city clerk.
A school commissioner-at-large.
A justice of the peace.
A sealer of weights and measures.
An auditor, supervisor and constable in each ward.

A school commissioner in the First, Third and Fifth wards.
The polls in the several precincts will be open at 8 o'clock a. m. and close at 7 o'clock p. m. The precincts of the several wards are located as follows:

First precinct, First ward—Building owned by the city on North River street, north of engine house.
Second precinct, First ward—Building owned by the city on the Washington school grounds, between Washington and Terrace streets.

First precinct, Second ward—At No. 154 North Main street.
Second precinct, Second ward—Building owned by Thoroughgood & Co., at the north-west corner of Fourth avenue and North Main street.

First precinct, Third ward—Building owned by W. B. Conrad near east end of Court street bridge.
Second precinct, Third ward—Building owned by the city on Racine street, east of and near South Main street.

First precinct, Fourth ward—At No. 56 South River street.
Second precinct, Fourth ward—At No. 53 South Academy street.

Fifth ward—Building owned by the city on Holm street, near Center avenue.
By order of the Common Council.
A. E. BADGER, City Clerk.

NOTICE OF SPECIAL ELECTION.

System of Sewerage.
Office of the City Clerk, City of Janesville, Wis., March 20, 1901.
To the Electors of the City of Janesville: Notice is hereby given that the question of the construction of a system of sewerage will be submitted to the electors of said city at the municipal election to be held in the several wards and election precincts therein on the 2nd day of April, 1901.

The said question is to be submitted for the purpose of getting an expression of the electors on the subject and not for the purpose of incurring any liability.

The ballot used for the municipal election will have at the bottom thereof and after the names of the candidates the form of ballot to be used by such electors as may vote in favor or against the proposition submitted as follows:

For Sewerage... YES NO
The said election will be held in the precincts of the several wards where the municipal election is to be held on said day, and the polls in each of said precincts will be open at 8 o'clock a. m. and close at 7 o'clock p. m.
By order of the Common Council.
V. P. RICHARDSON, Mayor.

A. E. BADGER, City Clerk.

EXPECTS FINISH OF MEXICO

Some Citizens Look to Annexation as Fate.

RESPECT UNITED STATES.

Edward A. R. Green, son of the "Rich-est Woman in America." After a Long Tour of the Southern Republic. Tells Impressions.

Chicago, March 25.—Edward A. R. Green, son of Mrs. Hetty Green and president of the Texas Midland rail-road, says that among the better classes of people in Mexico there is a growing belief that Mexico is destined eventually to be absorbed by the United States. There is also an increasing sentiment favorable to this idea, Mr. Green says. Mr. Green is at the Great Northern hotel with a party of friends, after completing an 11,000-mile rail-road journey through Mexico. During the trip, which took a month, the party traveled over every mile of standard railroad track in the republic, and Mr. Green is loud in his praises of the natural wealth of the country and the fine opportunities offered there for investments. He also spoke at length of the sentiment in favor of annexation.

Cher Uncle Sam on the Stage. "I had a striking illustration of this," he said, "in connection with a circus exhibition in the City of Mexico. There is to a conference of all nations there next fall, and one of the features of the show was a representation of the different nationalities paying their respects to the president of Mexico. They all came in, one after another, and saluted the president, who was seated in his chair of state. When Uncle Sam came, however, he calmly proceeded to oust the occupant of the chair and occupy it himself. It was a rather startling proposition to

FOR THE GRIP. You Have Heard of Many Remedies—Did You Ever Try This One.

Everybody you meet on the streets nowadays has just had the grip, is coming down with it or has a sure cure for it.

The disease has been a puzzle to physicians ever since its appearance several years ago and is as much of a puzzle today as it was then. It exhibits such a variety of symptoms in different individuals and leaves such disastrous results after apparent recovery that as yet its prevention and cure has baffled medical science.

However there is no doubt but that the grip is catarrhal in character and the leading symptoms in nearly every case is increased secretion in the head and throat, in fact the first indications of lagrippe are those of cold in the head which extends to the throat and lungs.

Dr. Johnson Ames advises as the safest course to pursue on the first appearance of grip symptoms to keep to the house for a day or two and take Stuart's Catarrh Tablets every hour the first day and every two hours the following day and states that this will break up the trouble before it becomes deep seated.

These catarrh tablets are antiseptic and harmless and prevent fever and the further development of grip germs, and ward off the ever present danger of pneumonia.

Dr. Gerald Simpson says: "I found Stuart's Catarrh Tablets a pleasant and thoroughly reliable remedy for the grip, especially with elderly people with whom this prevailing disease is always dangerous; the tablets can be found at any drug store and if used freely during the first few days of the attack will break it up."

Lagrippe is a catarrhal infection, the germs are in the air and no one is proof against it, but the timely use of Stuart's Catarrh Tablets will prevent any serious results.

An Honest Medicine for La Grippe.

George W. Waite, of South Gardiner, Me., says: "I have had the worst cough, cold, chills and grip and have taken lots of trash of no account but profit to the vendor. Chamberlain's Cough Remedy is the only thing that has done any good whatever. I have used one bottle of it and the chills, cold and grip have all left me. I congratulate the manufacturers of an honest medicine." For sale by People's Drug Co. and King's pharmacy.

THE CHANGE OF LIFE

Is the most important period in a woman's existence. Owing to modern methods of living, not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

Those dreadful hot flushes, sending the blood surging to the heart until it seems ready to burst, and the faint feeling that follows, sometimes with chills, as if the heart were going to stop for good, are symptoms of a dangerous, nervous trouble. Those hot flushes are just so many calls from nature for help. The nerves are cry-

MRS. JENNIE NOBLE.

ing out for assistance. The cry should be heeded in time. Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It builds up the weakened nervous system, and enables a woman to pass that grand change triumphantly. "I was a very sick woman, caused by Change of Life. I suffered with hot flushes, and fainting spells. I was afraid to go on the street, my head and back troubled me so. I was entirely cured by Lydia E. Pinkham's Vegetable Compound."—Mrs. JENNIE NOBLE, 5010 Keyser St., Germantown, Pa.

me, but my surprise was vastly increased when the audience burst into wild cheering, thus showing in the sincerest manner possible their entire approval of the operation. I had run across the sentiment before among the more educated and prosperous classes, but was not prepared for any such expression of sentiment as this. There is another element which is opposed to this suggestion and would like nothing better than to see the fortunes of Mexico joined with those of Spain. This element is among the peons and more ignorant classes, who look with horror upon the possibility of their country becoming a part of the United States. It is in the larger cities that you find the former classes, where American ideas are making rapid progress, and where the English language is steadily becoming more common. When, however, you get out into the country, you find the others, who speak nothing but Spanish, and who want nothing but Spain.

Expect North American Unity. "Among the progressive people there is a great admiration for the wonderful progress and power of this country, and a belief that it is certain to stretch out in the future and take in all the North American continent. They believe that in this way there will come a development of the great resources of Mexico that would be impossible if it preserved its own national autonomy. There is a belief that Mexico by itself can never reach that degree of prosperity that it could if it were a part of the great republic to the north. There can be no doubt of the wonderful natural wealth of that country. We traveled altogether about 11,000 miles, and I was continually impressed with this fact." Mr. Green confirmed the reports as to the scarcity of silver dollars in Mexico, saying it was exceedingly difficult to secure them. He intimated that his trip had something to do with possible investments on a large scale, but was unwilling to go into details. He will remain in Chicago two or three days, and then return to Terrell, Tex., his home.

DOINGS OF THE LAW MAKERS.

ILLINOIS.
 Wednesday, March 27.
 The house postponed to April 4 consideration of the steering-committee resolution for a sine-die adjournment on April 26. The senate passed a resolution for a sine-die adjournment on May 3 and sent it to the house, where it was laid on the speaker's table, which means that it will remain without action till it shall please the speaker to take it up.
 Governor Yates sent the following nominations to the senate this morning:
 William Olin Forbes of Cook county, for member of the state board of health, to succeed L. Adelsberger of Monroe county, resigned.
 Thomas J. Clark of Adams county, for commissioner of the Southern Illinois penitentiary, to succeed Thomas W. Scott of Wayne county, resigned.
 William P. Smith of Platt county, for member of the state board of stock commissioners to succeed James H. Pad-dock of Sangamon county, resigned.

Mrs. C. E. VanDeusen of Kilbourn City, Wis., was afflicted with stomach trouble and constipation for a long time. She says, "I have tried many preparations but none have done me the good that Chamberlain's Stomach and Liver Tablets have." These tablets are for sale at People's drugstore & King's Pharmacy. Price 25 cents. Samples, free.

Headache often results from a disordered condition of the stomach and constipation of the bowels. A dose or two of Chamberlain's Stomach and Liver Tablets will correct these disorders and cure the headache. Sold by People's drugstore & King's Pharmacy.

Car Line Fights Boulevard.

Marion, Ind., March 28.—Bonds in the sum of \$115,000 for the purpose of building a boulevard from this city to the national military home was advertised and was to have been sold, but suit to enjoin the commissioners from selling the same was filed in the Circuit court late in the evening. Forty-eight had been received and a premium of 3 per cent was offered. The Union Traction company, which would have been greatly injured by automobile traffic, was responsible for the suit.

Engineer Slain in Wreck. Appleton, Wis., March 28.—A collision on the Northwestern road at Little Rapids about 3 p. m., between a north-bound passenger train and a heavy freight, resulted in the death of the passenger engineer, besides several injuries sustained by a number of others. The dead man is Harry Jones, Milwaukee, engineer of passenger train. Many others, the extent of whose injuries have not yet been ascertained, were conveyed to hospitals in Green Bay.

Miners and Operators Agree. Massillon, O., March 28.—The miners and operators have reached an agreement. The new scale goes into effect April 1. The operators gained some alterations in the working rules, but all changes representing dollars and cents are in the miners' favor. The most important are an advance of 2 cents a car for slack, reduction of 10 cents per keg in the price of powder and a reduction of 10 cents per ton in the price of house coal to miners.

Refuses to Meet Miners. New York, March 28.—J. Pierpont Morgan refused today to meet publicly the officers of the United Mine Workers of America and discuss the differences in the anthracite coal region. He stated his belief there would be no strike and said he would do all in his power to avert a clash with the workers.

INVIGORATED

HOW A WOMAN GOT HER STRENGTH BACK.

She Took Our Vinol with Good Results.

WE WANT EVERY ONE TO KNOW ABOUT IT.

READ WHAT WE HAVE TO SAY. COME AND SEE US.

We don't want any one in this city to drag themselves through life in pain and misery for the want of enough strength to feel well and happy.

If you feel listless, without ambition and run down, it is a bad sign. You are running grave chances. You are in a condition to be attacked by most any disease.

This feeling of debility is a symptom that your system is generally demoralized. You should take a tonic. You should take Vinol, which we know and will guarantee will restore your strength.

Following is one case where it did this. Mrs. T. H. Boyle, of 56 Chestnut St., West Newton, Mass., says: "Last spring I used one bottle of Vinol. At that time I was all run down and sick. I find that it did me lots of good, and by its use my strength came back to me."

Vinol is a delicious preparation, containing the active curative principles that are found in cod-liver oil, dissolved in a delicate table wine. Vinol acts directly on the stomach, aiding digestion and at the same time creating a healthy appetite. It gives strength and vigor to every organ of the body.

We endorse Vinol, and guarantee its action, and will gladly refund to any one who is not satisfied the money which they paid for it.

SMITH'S PHARMACY, of Janesville.

STATE OF WISCONSIN, COUNTY COURT For Rock County.—In Probate. Notice is hereby given that at a regular term of the county court to be held in and for said county at the court house in the city of Janesville, in said county, on the first Tuesday, being the 16th day of May, 1901, at nine o'clock a. m., the following matter will be heard and considered:
 The petition of W. J. McIntyre, administrator of the estate of Louis Herring, deceased, for license to sell the following real estate, to-wit:—Lot No. six (6) in Dickson and Bailey's Addition to the city of Janesville, Rock County, Wisconsin.
 Dated March 28, 1901.
 By the Court, J. W. SALE, County Judge.

BORT, BAILEY & CO.

ELECTION NOTICE.

Office of County Clerk, March 23, 1901.

To the electors of Rock County: Notice is hereby given that a judicial election is to be held in the several towns, wards and election precincts in the county of Rock on the 2nd day of April, 1901, at which the officers named below are to be chosen. The names of the candidate for each office to be voted for whose nominations have been certified to this office, are given opposite the title of the office and under the appropriate party or other designation, each in its proper column.

Information to Voters.

The following instructions are given for the information and guidance of voters. A voter upon entering the polling place and giving his name and residence will receive a ballot from the ballot clerk which must have indorsed thereon the names or initials of both ballot clerks, and no other ballot can be used. Upon receiving his ballot the voter must retire alone to a booth or compartment and prepare the same for voting.

A ballot clerk may inform the voter as to the proper manner of marking a ballot but he must not advise or indicate in any manner whom to vote for. The voter if he wishes to vote for all the candidates nominated by any party should make a cross mark X under the party designation printed at the top of the ballot in the square made for that purpose. A ballot so marked and having no other mark will become (be counted) for all the candidates of that party in the column underneath unless the names of some of the candidates have been erased or a cross mark be placed in the square under the name or at any place in the space occupied by the name or names of candidates in another column, and will be counted for all names written in lieu of one erased. If the voter wishes to vote for some of the candidates of different political parties, he should make a cross mark under the name of each candidate he desires to vote for, or at any place within the space in which the name is printed. If he wishes to vote for a person for a certain office whose name is not on the ballot he must write the name in the blank space under the printed name of the candidate for the office. The ballot should not be marked in any other manner. If the ballot be spoiled it must be returned to the ballot clerk, who must issue another in its stead, but not more than three in all to any one voter. Five minutes' time is allowed in booth to mark ballot. Unofficial ballots or memorandum to assist the voter in marking his ballot can be taken into the booth, and may be used to copy from. The ballot must not be shown so that any person can see how it has been marked by the voter. After it is marked, it should be folded so that the inside cannot be seen, but so that the printed indorsements and signatures of the ballot clerks on the outside may be seen. Then the voter should pass out of the booth or compartment, give his name to the inspector in charge of the ballot box, hand him his ballot to be placed in the box, and pass out of the voting place. A voter who declares to the presiding officer that he is unable to read, or that by reason of physical disability he is unable to mark his ballot, can have assistance of one or two election officers in marking the same, to be chosen by the voter and if he declares that he is totally blind, he may be assisted by any person chosen by him from among the legal voters of the county. The presiding officer may administer an oath in his discretion as to such person's disability. The party designations and candidates for the different offices are, for example as follows:

Individual Nominations.

For Justice of Supreme Court. JOSHUA ERIC DODGE. A Non-Partisan Judiciary
 For County Judge. JOHN W. SALE. A Non-Partisan Judiciary
 F. P. STARR, County Clerk.

TEN PER CENT. CASH DISCOUNT SHOE SALE.

Thursday, Friday and Saturday, March 28, 29 and 30.

Nothing Reserved, Spring Assortment, Large Stock Exclusive Styles

It has always been our custom, at the beginning of each season to hold an opening sale, of the season's novelties, and give the people of Janesville, and vicinity the benefit of all our new purchases.

THE SHOES YOU WANT ARE THE SHOES WE SELL!

This is not a store of make-believes and misfits, but a store where shoes of the highest quality may be had in all seasons at moderate prices. We reach out in every direction for the trade of intelligent people. We provide this footwear in a large variety of styles and qualities—always selecting those styles we think will please you best, and confining our purchases to shoes made of best leathers and finished to perfection. Then we cap the climax by making the prices as low as you are frequently asked for inferior grades in common place shoe stores. Are these reasons sufficient to command your trade? And further on these days we give you an additional Ten per cent. discount, which is certainly a great chance to buy your shoes for Easter and save money.

The working man's shoe has taken our attention this season and we have provided a shoe that looks well, wears well, and at a very moderate price

Men's Oil Grain Shoes in lace or congress	\$1.25 and \$1.50
Men's Satin Calf, lace or congress, all lasts	2.00 and 2.50
Men's Lone Calf and Colt Skin	\$2.50

C. C. BENNETT SHOE CO.

West End of Bridge
No. 7, West Milwaukee St.

Who can tell you "what men of fashion will wear this spring"? We can.

"FASHION"

wears out more clothes than wear."

That is as true to day as it was in the time of the Bard of Avon. The man who is economically inclined and who wants to be in fashion must put up with cheap tailoring and cheap fabrics, or get first class ready tailored clothes made from the

Most dependable fabrics and that cost far less than a made-to-measure suit from even a cheap tailor.

Such clothes can be found bearing our label which has become known to a majority of the well dressed men of this city, as belonging to

The Finest and Most Stylish Clothing

that don't cost a lot.

We are sole agents in this city for several popular lines of clothing and the range for your choice is now both large and varied.

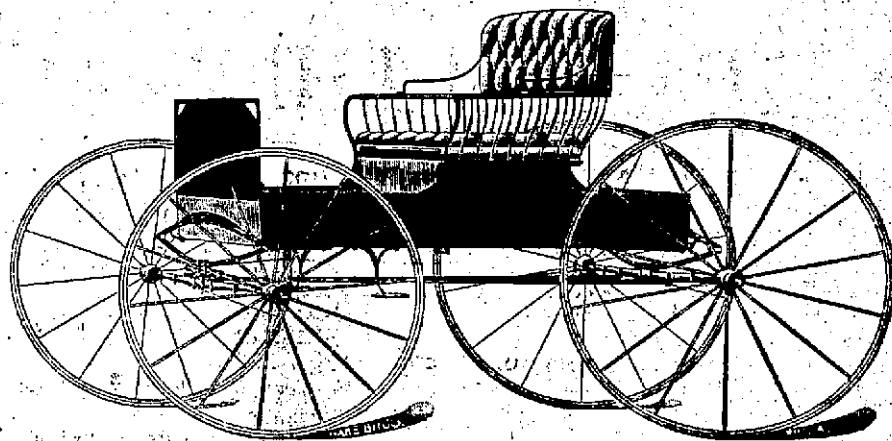

Suits - 12 to \$18

Top coats 12 to \$15

SPRING OVERCOATS 12 to \$25

E. J. SMITH, Manager.

A Speedy Horse

Should be driven to a light pneumatic speed or road wagon; and you will never know the actual capability of your horse till you hitch him to a light bike wagon. Buy one of our wagons and develop the speed in your animal. It may be worth thousands of dollars to you—and will surely afford you great pleasure. But we have a full line of light vehicles, if you prefer another style.
